

Internet censorship:

**Wikipedia, Facebook, Twitter and Google
Are censored in several countries**

Tor is free software and an open network that helps you defend against traffic analysis, a form of network surveillance that threatens personal freedom and privacy, confidential business activities and relationships, and state security.

- Over 2 million users right now
- 10 000 from Finland
- 99% of the content is legal in Finland
- 97% of the traffic originating from Tor is legal
- Exit nodes are the bottle neck of the network
